

## Instructions for Optical Illusion Performer

You are performing the Cat & Mouse Optical Illusion

1. Download and print off both pages – This instruction page is NOT shown on camera
2. Practise holding the 'cat/mouse' image page up to your camera so the audience can clearly see it
3. Ask the audience what they see? Most people will reply a cat.
4. Explain that if they look closer they will see a mouse in front of a cat's face.
5. Conclude by commenting that things are not always as they appear.
